

Tomas Peralta is the Chief Flight Instructor at Red Arrow Flight Academy, bringing with him over 20 years of experience and an extensive knowledge of aviation. Mr. Peralta fostered a love for flying, thanks in part to his family's involvement in aviation. His dad, mom, and sister all hold private pilot certificates, so he began his training in 2001 while attending college. He went on to earn his Bachelor of Science in Industrial Engineering from ITESM in Monterrey, Mexico, as well as a Master of Science in Industrial Engineering and an MBA from Georgia Institute of Technology.

After returning to the El Paso area, Mr. Peralta became a founding member of Red Arrow Flight Academy. He holds an ATP single-engine land certificate, a commercial multi-engine aircraft certificate, a Cirrus Vision Jet Type Rating, and a Cessna Citation Jet Type Rating. In addition, he is a CFI and CFII. Mr. Peralta has flown and owned a variety of aircraft for personal, training, and corporate flying purposes. Mr. Peralta's extensive experience and expertise have earned him roles as both a FAASTeam Representative and an ABQ FSDO Designated Pilot Examiner.

He is also a dedicated warbird enthusiast and serves as a board member at the War Eagles Air Museum, where he shares his passion for aviation history. Tomas regularly takes to the skies in his classic 1946 Globe GC-1 Swift. He also serves on the board of the Amigo Airshow as the Vice President of Air Operations. Mr. Peralta is also the proud President of the EAA (Experimental Aircraft Association) 1570 Chapter. In the wintertime, Mr. Peralta is a certified National Ski Patroller and Outdoor Emergency Care instructor. He is often accompanied by his trusty German Shepard sidekick, Belka.
